Polymers for Advanced Technologies
Volume 1

CONTENTS OF VOLUME 1

NUMBER 1 FEBRUARY 1990

Herman Mark: A Legend in His Lifetime
Herbert Morawetz ____ 1

From Revolution to Evolution
Herman F. Mark ____ 5

Ionic Miscibility Enhancement via Microion Elimination in Sulfonated Polystyrene/Poly(ethyl-acrylate-co-4-vinyl pyridine) Ionomer Blends
Xinsheng Zhang and Adi Eisenberg ____ 9

Mechanism and Process of Chemomechanical Contraction of Polyelectrolyte Gels Under Electric Field
R. Kishi, M. Hasebe, M. Hara, and Y. Osada ____ 19

The Formation of Polymerizable Tubules
J. B. Lando, J. E. Hanen, R. V. Sudiwala, and S. E. Rickert ____ 27

Development of Polyaniline-Lithium Secondary Battery
Tsutomu Matsunaga, Hideharu Daifuku, Tadashi Nakajima, and Takahiro Kawagoe ____ 33

Mechanical and Dielectric Relaxations in Liquid Crystalline Copolyesters
D. Green, G. R. Davies, I. M. Ward, M. H. Alhaj-Mohammed, and S. Abdul Jawad ____ 41

Synthesis and Degradation of Cyano-Containing Aramids
S. Kim, E. M. Pearce, and T. K. Kwei ____ 49

Evaluation of Nonlinear Optical Susceptibility of Polydiacetylenes by Third Harmonic Generation
H. Nakanishi, H. Matsuda, S. Okada, and M. Kato ____ 75

Studies of the Structure of Blends Containing Two Liquid Crystal Polymers
Mark T. DeMuese and Michael Jaffe ____ 81

Electrooptical Properties of Liquid Crystalline Side Chain Polymers with Laterally Attached Mesogenic Units
H. Hirschmann, D. A. Jungbauer, M. Wolf, J. H. Wendorff, H. Finkelmann, and F. Hessel ____ 93

Photocrosslinking of Ultra High Strength Polyethylene Fibers
Young Lie Chen and Bengt Rånby ____ 103

Polymer Blends Containing Liquid Crystal Polymers
Matthias Ballauff ____ 109

NUMBER 2 NOVEMBER 1990

Preparation of Polyimides Utilizing the Diels-Alder Reaction. I. Bis(3,4-dimethylenepyrrolidyl) Arylenes with Bismaleimides
Raphael M. Ottenbrite, Akira Yoshimatsu, and Joseph G. Smith, Jr. ____ 117

New Synthetic Route of Polyoxytetramethyleneglycol by Use of Heteropolyacids as Catalyst
Atsushi Aoshima, Shoichiro Tonomura, and Setsuo Yamamatsu ____ 127

Raman Spectroscopic Study of the Effect of Take-Up Speed on Conformation, Orientation, and Crystallinity in PET Fibers
Bernard J. Bulkin, Frank J. DeBlase, and Menachem Lewin ____ 133

Reinforcement of Amorphous Thermoplastics by Blending with a Para-Linked Aromatic LC-Polyester
M. S. Claßen, H.-W. Schmidt, and J. H. Wendorff ____ 143

The Thermal Properties of Poly(oxy-1,4-benzoyl), Poly(oxy-2,6-Naphthoyl), and its Copolymers
Mao-Yong Cao, Manika Varma-Nair, and Bernhard Wunderlich ____ 151

Features and Origin of the Dynamic and the Nonlinear Piezoelectricity in Poly(Vinylidene Fluoride)
P. Harnischfeger and B.-J. Jungnickel ____ 171

High Intrinsic Conductivity in Ladder Type Polymers: Pyrolyzed BBB
D. Davidov, I. Belaish, C. Rettori, M. R. McLean, and L. R. Dalton ____ 181

REVIEW ARTICLE
Poled Amorphous Polymers for Second-Order Nonlinear Optics
Manfred Eich, Gary C. Bjorklund, and Do Y. Yoon ____ 189

NUMBER 3/4 JUNE–AUGUST 1990

EDITORIAL 199

Synthesis, Polymerization and Cation Conductive Properties of (ω-carboxy)-oligo (oxyethylene) Methacrylate
S. Takeoka, Y. Maeda, E. Tsuchida and H. Ohno 201

Electro-oxidative Polymerization of 1,3-Cyclohexadiene
K. Yamamoto, T. Asada, H. Nishide and E. Tsuchida 207

Curing and Phase Separation Behavior of Amine Terminated Butadiene Acrylonitrile Copolymer (ATBN) Modified Epoxy
D.S. Kim and S.C. Kim 211

Phase Separation During the Chemical Blending of Polybutadiene/Polystyrene Blend
D. K. Nam and S. C. Kim 219

Fluorescence Study of Polyelectrolyte Complex Formation. I: Complexation of Anthracene-loaded Poly(methacrylic acid) with Polycations
Y. Itoh, K. Negishi, E. Lizuka and K. Abe 225

Gas Transport in Polyurethane-Polystyrene Interpenetrating Polymer Network Membranes
D. S. Lee, T-M. Tak, G. S. Kim and S. C. Kim 231

Ionic Conductive Polymers Based on Polymethylsiloxane Graft-crosslinked with Oligo (ethylene oxide)
H. L. Mei, Y. Okamoto and T. Skotheim 239

ESR Imaging Study of the Spin Distribution in Ladder Type Polymer Films Containing Spatially Selective Conducting Patterns
J. Dahm, D. Davidov, V. Macho, H. W. Spiess, M. R. McLean and L. R. Dalton 247

Recoverable Polyimides. (II): DSC Studies of Copolymers from 4, 4′-Dithiodianiline Bismaleimide (DTDA-BM) and Aromatic Diamines
Y. Wu and G. C. Tesoro 253

REVIEW ARTICLE
The Utilization of SANS to Solve Polymer Latex Structural Problems: Basic Science and Engineering
L. H. Sperling, A. Klein, J. N. Yoo, K. D. Kim and N. Mohammadi 263

NUMBER 5/6 OCTOBER–DECEMBER 1990

Water-soluble Polyamides as Potential Drug Carriers, IV: Amine-functionalized Copolyaspartamides
M. de L. Machado, E. W. Neuse, A. G. Perlwitz and S. Schmitt ____ 275

Visible Laser Sensitive Photopolymers Initiated by Dye Sensitized Peroxyester Systems
T. Yamaoka, Y. Nakamura, K. Koseki and T. Shirosaki ____ 287

Bistable Electro-optical Switching for (Liquid Crystalline Polymer)/(Low Molecular Weight Liquid Crystal) Composite System
H. Kikuchi, S. Moritomi, J. C. Hwang and T. Kajiyama ____ 297

Thermal and Nuclear Magnetic Relaxation Studies of Water–Sodium Polystyrene Sulfonate Systems
T. Hatakeyama and H. Hatakeyama ____ 305

Reversible Alignment Change of Nematic Liquid Crystals by Photochromic Polymer Films
Y. Kawanishi, T. Seki, T. Tamaki, K. Ichimura, M. Ikeda and K. Aoki ____ 311

Oxygen-binding and Transport in the Liquid Crystal Membrane Containing Cobaltporphyrin as an Oxygen Carrier
H. Kawakami, K. Tsuda, K. Yamane, H. Nishide and E. Tsuchida ____ 319

Effect of Compatibilizer on the Crystallization Kinetics and Mechanical Properties of Nylon 6/LDPE Blends
H. K. Kim and S. C. Kim ____ 325

Solubility of Methacrylic Acid Alkali Metal Salts in Polyethylene Oxide and Cation Conductivity after Polymerization
H. Ohno and Y. Ito ____ 335

Anionic Living Polymerization of 4-[Bis(trimethylsilyl)methyl]styrene and its Properties as a Resist Material
N. Kato, Y. Nagasaki and M. Kato ____ 341

Novel Graft Copolymers for *in vivo* Targeting of Colloidal Carriers
R. Arshady, L. Illum and S. S. Davis ____ 345

Author Index ____ 351

Keyword Index ____ 352
